

# Winding Specifications

**Axicon Labels**

How your labels are presented on the reel.

Customers using label applicators will require their labels to be supplied in a way that maximises efficiency. This will include details such as a certain edge leading off the reel, a specific core size, wound facing inside or outside and a maximum reel size.

Let our sales and customer service team know the number of the diagram that matches your requirement along with the core and reel size to help us ensure that your labels are supplied the way that is best for you.

Core Size:

25mm  38mm  45mm  75mm

Labels per Reel

Maximum outside diameter

If you are unsure of your requirement or have any questions at all please do not hesitate to contact us on 01869 350 442.
